MERN_stack

- **i-notebook:** This project is a web application that provides features such as **login/logout, password security, and token generation**. The login/logout feature allows users to securely log in and log out of the application. The password security feature ensures that user passwords are stored securely and are not easily accessible to unauthorized users. [The token generation feature generates access tokens that can be used to authenticate an application or notebook to the i-notebook services](#)

STRENGTH

Innovative thinking

I am skilled at thinking creatively and coming up with new ideas.

Adaptability

I am a fast learner and enjoy working with new technologies.

Collaboration

I work well in teams and am also capable of working independently when needed.
